Christophe GaudronLogistic & Energy Procurement Director
Renault Group16:20 PANEL DISCUSSION The Digital Overload Dilemma:
How Complexity Is Undermining
Procurement Innovation

More tools, more data, more dashboards — and somehow, less clarity. As digital transformation accelerates, procurement teams are finding themselves buried under layers of fragmented systems, competing platforms, and misaligned priorities. This panel brings together procurement leaders and tech experts to unpack the hidden cost of digital overload — and why more technology doesn't always mean more innovation. Together, they'll explore how to cut through the noise, streamline tech stacks, and refocus on solutions that truly enable agility, collaboration, and strategic decision-making. It's time to stop digitizing complexity — and start designing simplicity.

Empowering Supply Chain Leaders with Real-Time Dashboard Solutions

In the rapidly evolving world of supply chains, agility and foresight are key to staying competitive. This session dives into the transformative power of real-time dashboard solutions, designed to equip supply chain leaders with instant, actionable insights. Discover how these cutting-edge tools revolutionize procurement, sourcing, and supplier performance management, enabling leaders to proactively tackle challenges and seize new opportunities. With global networks becoming more complex and disruptions more frequent, traditional reporting methods no longer provide the speed or clarity needed for effective decision-making. Real-time dashboards integrate data from across the value chain, offering a single source of truth that highlights trends, risks, and opportunities as they emerge. Attendees will explore how advanced visualization, predictive analytics, and AI-driven insights can empower organizations to anticipate market shifts, improve supplier collaboration, and drive sustainable performance improvements.

09:50 Case Study: 

Hybrid Procurement Workflows: AI Meets Human Judgment

As AI becomes part of daily procurement work, the real challenge is making people and machines work well together. This talk looks at how to build simple, smart workflows where AI handles routine tasks - like spotting risks or delays - and people step in where judgment matters. Think: AI spots a price drop, predicts a shipment delay or flags overspending - then humans make the right call. The result? Faster, smarter and more human procurement.

10:30 Morning Coffee and Networking Break 

11:00 Case Study: 

Transforming Procurement Functions for Multinational Standards

In today's fast-paced, globalized marketplace, procurement functions must evolve to meet the standards of multinational corporations while ensuring efficiency, cost-effectiveness, and sustainability. Drawing from over two decades of experience in diverse industries such as Pharma, FMCG, and Telecom, Atif will explore the strategies and methodologies required to transform procurement functions for multinational standards. Atif will share key insights from his leadership roles at Friesland Campina, Syngenta, and AstraZeneca, highlighting the importance of integrating people, processes, and technology to drive procurement excellence. Participants will gain valuable takeaways on the challenges of implementing multinational procurement strategies and how to overcome common obstacles.

- Discover how to align procurement with global corporate standards.
- Learn practical approaches to embedding sustainability in procurement.
- Understand how to build resilient supplier partnerships across regions.

12:20 WORKSHOP 

Embedding People-Centricity into Procurement Transformation: From Stakeholder Alignment to Empowered Teams

Procurement is no longer just about process optimization — it's about designing systems that serve people at every touchpoint. This workshop will explore how to put people at the center of procurement transformation, from understanding stakeholder needs and improving cross-functional collaboration to empowering procurement teams with intuitive tools and decision-making autonomy. Discover how organizations are shifting mindsets to prioritize user experience, emotional intelligence, and inclusive engagement across procurement operations. Through real-life examples and practical exercises, participants will learn how to drive alignment, foster trust, and build resilient procurement cultures that are agile, adaptive, and ready for the future.

13:00 Business Lunch 

14:00 Case Study: 

Achieving Procurement Excellence: Strategies for Streamlining Processes and Maximizing Value

In today's competitive landscape, procurement has become a strategic driver of value rather than just a cost function. Organizations are under increasing pressure to balance efficiency, compliance, and resilience while also building stronger, more transparent supplier networks. This session provides practical insights and actionable strategies to help procurement leaders transform their operations and unlock new opportunities.

- Explore proven strategies for streamlining procurement processes to drive efficiency and reduce costs.
- Understand how to optimize the procurement lifecycle, from sourcing to payment, for maximum value.
- Learn how to integrate digital tools and automation to enhance decision-making and improve supplier relationships.

Carmen Fernandez
Head of Procurement Excellence

14:40 Case Study: 

Supplier-Centric Digital Procurement: Creating Value Through Intelligent Collaboration

We will explore how procurement teams can navigate this cultural shift, overcome resistance, and build a future-ready, agile procurement function. We'll dive into actionable strategies that foster collaboration, drive innovation, and create a culture of continuous improvement.

Key Takeaways:

- Understanding the psychological and organizational barriers that fuel resistance to change in procurement.
- Proven strategies for fostering collaboration and buy-in across procurement teams and other stakeholders.
- Practical tools for embedding new technologies and practices into a procurement culture that adapts and evolves over time.

SPOTLIGHT ON OUR SPEAKERS

6TH WORLD DIGITAL PROCUREMENT SUMMIT | 12–13 FEBRUARY 2026 | BERLIN, GERMANY

Simon Watson
Vice President
Efficio

Simon Watson is a Partner at Efficio, one of the world's largest procurement focused consultancies. He helps clients to transform their procurement organisations and deliver increased value to their businesses, whether in the form of sustainable cost savings or outcomes such as repositioning the function as a strategic partner. He has chaired the World Procurement Summit since 2019 and co-authored the book Profit from Procurement: Add 30% to your Bottom Line by Breaking Down Silos, published by Wiley in 2021.

Niklas Lohse
Vice President Procurement Excellence
Rolls-Royce

Niklas Lohse is Vice President of Procurement Excellence at Rolls-Royce, where he leads initiatives to make procurement more effective, transparent, and better aligned with the company's overall goals. Niklas previously held senior roles at Tesla – managing construction procurement during a major phase of global expansion – and at Rolls-Royce, focusing on strategic sourcing for IT, property, and engineering services. Throughout his career, Niklas has maintained a strong strategic focus – linking procurement decisions to broader business outcomes, cost structures, and risk mitigation. This strategic perspective has proven especially valuable in navigating the company through recent tariff uncertainties, where aligning commercial strategy with shifting global trade dynamics was essential to maintaining resilience and competitiveness.

Till Bohmer
Procurement Excellence Manager
ENGIE Procurement Hub Europe

Till Böhmer is an energy engineer with 27 years of professional experience in the energy sector. For the past 10 years, he has held positions in procurement, including Procurement Operations Manager and Senior Vice President Procurement. Currently, Till serves as the Procurement Excellence Manager for Hub Europe and Managing Director of ENGIE Generation Germany GmbH. ENGIE is a global leader in low-carbon energy and services, committed to accelerating the transition towards a carbon-neutral world. The company leverages its core businesses (gas, renewable energy, and services) to offer competitive solutions to its customers.
