World EdTech & Innovation Summit

 **12-13 FEBRUARY 2026**

 **BOSTON, MA**

Register Now & Save USD 300

Following ten successful editions of the **Innovative Learning Spaces Summit**, we are excited to announce the launch of the **World EdTech & Innovation Summit**, taking place on **12-13 February 2026** in **Boston, MA**. This summit will spotlight the latest advancements, strategies, and technologies shaping the future of higher education. From AI-driven course design and immersive professional skills labs to smart campus infrastructure and student-centered digital ecosystems, the event will explore how technology can transform learning environments to boost engagement, foster innovation, and elevate students' outcomes. The summit will bring together senior-level university leaders, educators, EdTech innovators, and other industry leaders to collaborate, exchange ideas, and uncover actionable solutions that redefine the educational experience. Join us to explore inspiring case studies, participate in engaging discussions, and gain practical insights that will empower you to lead digital transformation and pedagogical innovation at your institution!

Key Practical Learning Points

- Designing Engaging Virtual and Hybrid Classrooms That Promote Active Participation
- Implementing AI-Powered Tools to Automate and Enhance Course Design and Assessment
- Leveraging Chatbots and Virtual Agents to Improve Student Support and Administrative Workflows
- Applying Learning Analytics to Tailor Course Content and Improve Student Outcomes
- Building Inclusive Co-Creation Processes That Involve Students in Course Development
- Scaling Active Learning Techniques Across Faculties to Increase Engagement and Retention
- Embedding Innovation Into Teaching Norms to Foster a Culture of Continuous Improvement
- Developing Immersive Labs for Practical Skills Training Across Diverse Disciplines
- Leading Digital Transformation Initiatives to Build Internal Capacity and Align Strategy With Pedagogy

Take a Look at Our Innovative Learning Spaces Summit

Who Should Attend

This summit will bring together Directors, Heads, Managers, Principals, Deans, Professors, and Senior Level Executives involved in:

- Higher Education
- Digital and Blended Learning
- Educational Development and Innovation
- Learning Technology and EdTech Solutions
- Student Experience and Support Services
- Learning Analytics and Data Science
- Teaching Innovation and Pedagogical Adoption
- Immersive Learning and Simulation Labs
- Smart Campus Infrastructure
- Library and Information Services
- Space Planning and Facilities Management
- Research and Educational Policy
- & Others!

 **X 12+ Industry Case Studies**

 **X 20+ Hours of Networking:**
forge new professional contacts during numerous networking breaks between sessions & during the special Networking Dinner on Day 1

 **X 100+ Pages of the Post-Summit Materials**
documentation package available upon demand*

Did You Know?

94% of universities worldwide now use at least one learning management system (LMS) as a core part of their teaching infrastructure, making digital learning the new normal in higher education.

Over **60%** of faculty say EdTech tools have significantly increased student engagement, particularly in hybrid and active learning environments.

More than **80%** of universities now integrate AI-powered tools into at least one area of teaching, assessment, or student support, marking a major shift toward intelligent learning systems in higher education.

More than **70%** of universities use learning analytics to track student progress and personalize support, helping to improve retention and academic outcomes.

This agenda is not for public distribution

08:30 Check-In and Welcome Coffee 

09:00 Opening Address from the Chair

09:10 “Breaking the Ice” Speed Networking Session

Meet your colleagues, exchange business cards and have a maximum number of 1-on-1 talks in a short amount of time! Our Speed Networking session will help you to form those initial relationships early, find out who is facing the same challenges as you and get a nice preview of what a longer conversation could bring!

DIGITAL-FIRST LEARNING ECOSYSTEMS

09:50 AVAILABLE SPONSORSHIP SLOT

Empowering Educators and Students Through Data-Driven Insights

Discover how data analytics and AI-powered platforms are enhancing teaching strategies and student support systems. Learn about innovative approaches to leveraging behavioral data for personalized learning experiences and improved engagement across diverse campus communities.

10:30 Case Study: 

Building Bridges, Not Just Tools: Faculty Partnerships in AI and Active Learning Implementation

- Showcase a collaborative approach to implementing AI-powered tools and active learning technologies with faculty as key partners.
- Share successes and roadblocks in scaling new tools across faculty.
- Provide insights on faculty development, trust-building, and cross-functional collaboration.
- Offer a framework for implementing new technologies in alignment with institutional mission and teaching culture.

Kanchan Thaokar

Assistant Director, Education Technology
Fordham University

11:10 Morning Coffee and Networking Break 

11:40 Case Study: 

Scaling Excellence: Using AI-Powered Tools to Integrate High-Impact Teaching Practices Across Core Curriculum

Strategic Implementation at Scale: Learn how Georgia State University is systematically integrating high-impact practices into every core curriculum class, impacting 50,000+ students through technology-enhanced faculty development and AI-powered pedagogical tools.

Data-Driven Impact Assessment: Explore concrete student learning outcomes and success metrics demonstrating how technology-scaled high-impact practices improve retention, engagement, and academic achievement across diverse student populations.

Replicable Framework for Institutional Transformation: Gain actionable insights and a proven model for embedding innovation into teaching norms while building internal capacity for sustained pedagogical transformation at your own institution.

Kim Manturuk

Executive Director of the Center for Excellence
in Teaching Learning and Online Education
Georgia State University

12:20 Case Study: 

Beyond Traditional LMS: Using Prediction Markets and Collaborative Technologies to Enhance Classroom Participation*

Explore how innovative digital platforms like prediction markets and collaborative tools can transform traditional learning management systems to foster deeper student engagement and active participation. This session will showcase practical strategies for integrating technologies such as G Suite and Canvas to create dynamic, interactive classrooms where students are co-creators in their learning journey. Attendees will gain insights into enhancing student interaction, promoting real-time feedback, and leveraging data-driven methods to enrich the educational experience beyond conventional LMS capabilities.

John FitzGibbon

Associate Director of Digital Learning Innovation
Boston College

13:00 Business Lunch 

AI & STUDENT-CENTERED INNOVATION

14:00 Case Study: 

Understanding AI Agents (Not the 007 Kind): How Agentic AI Can Support Academic Outcomes and Simplify Administration for Student Pathways

Join Microsoft for an informative — and fun — session on Agentic Architecture. Whether you're managing spreadsheets, maintaining servers, prepping a class lecture, or committing code to a repo, AI agents can make your life a lot easier. We'll demonstrate how Microsoft 365 Copilot speeds up daily tasks for everyone, how GitHub Copilot accelerates coding and testing for developers, and how organizations can fine-tune their own agentic AI models to better engage campus communities. By the end of this session, you'll understand how the autonomous capabilities of AI agents are transforming the way we work and learn. It's up to you whether to keep them a secret.

Rob Curtin

Director, Data & AI Global Edtech Ecosystem
Microsoft Education

14:40 Case Study: 

HigherEd Tech Innovation: Finding Meaning Through the Noise, from Twitter to VR & AI, 20 Years of Progress

- Vision creation and mission alignment
- Culture change
- Progress in resource constrained environments
- Context matters (D1, R1 aspiring university in the rural Great Plains)

Greg Heiberger

Interim Dean of the Van D. &
Barbara B. Fishback Honors College
South Dakota State University

15:20 Afternoon Tea and Networking Break 

15:40 Case Study: 

Leveraging AI to Improve Instructor Engagement with Student Feedback

Transform student evaluations into actionable insights for teaching growth! CTB-FIT is an AI tool designed to process feedback through five evidence-based teaching dimensions. FIT's AI summaries help instructor focus on meaningful themes in feedback rather than isolated negative comments. Aggregated FIT reports allow leadership to more easily identify a unit's overall teaching strengths as well as needs for training and support.

Lauren Barbeau

Assistant Director,
Learning and Technology Initiatives
Georgia Institute of Technology

16:20 PANEL DISCUSSION 

Panel Discussion: The Future-Ready University – How Digital Infrastructure Will Shape the Next Decade

Join leading experts as they explore how evolving digital infrastructure is set to transform higher education in the coming years. This panel will examine key trends such as campus-wide connectivity, data-driven decision-making, and the integration of emerging technologies to create flexible, resilient learning environments. Attendees will gain insights into strategic investments and collaborative approaches necessary to build universities that are agile, inclusive, and ready to meet future educational challenges.

17:00 Chair's Closing Remarks and End of Day One

18:00 Networking Dinner 

* TBC

08:30 Check-In and Welcome Coffee 

09:00 Day Two Opening Remarks from the Chair

SMART CAMPUSES & DIGITAL STUDENT EXPERIENCE

09:10 AVAILABLE SPONSORSHIP SLOT

Transforming Campus Connectivity: Innovations in Smart Infrastructure

Explore how emerging technologies are reshaping campus networks and infrastructure to create seamless, connected learning environments. This session highlights advancements in IoT, predictive analytics, and integrated digital services that support both academic success and operational efficiency.

09:50 Case Study: 

Building UCLA's Smart Campus: Integrating Technology, Space, and Strategy

In this session, Dr. Joe Way explores UCLA's journey toward becoming a truly smart campus, one that leverages integrated systems, data-informed decision-making, and user-first design to transform the student and faculty experience. Learn how UCLA Digital Spaces is redefining classroom modernization, campus operations, and digital transformation through scalable infrastructure and cross-departmental collaboration.

Joe Way
Executive Director, Digital Spaces
UCLA

10:30 Morning Coffee and Networking Break 

11:00 Case Study: 

Technology Enabled Experiences and the Future of Learning Spaces

- Re-imagine learning spaces as collaborative experiences designed for the learner
- Engaging students and faculty in the design and innovation process
- Explore practical examples from ASU of experience driven spaces for XR, creativity and collaboration

Kyle Bowen
Deputy CIO, Enterprise Technology
Arizona State University

11:40 Case Study: 

From Segments to Strategy: Empowering Decision Making and Learning Space Design with Data

Explore how to leverage data and stakeholder feedback to design classrooms that foster academic community, address instructional needs, enhance space utilization, and maximize institutional investment. This case study on Stanford Classrooms Reimagined will spark engaging discussions and provide practical insights for learning space planning that attendees can implement in their own institutions.

Helen Chu
Assistant Vice Provost, Learning Spaces & Support
Stanford University

12:20 Case Study: 

The Idea Garden: Building a Culture of Confident Creators

- The core problem addressed is twofold: first, that expensive technology often sits idle due to lack of engagement or instruction. Second, that users—especially students—frequently feel intimidated or afraid of breaking something
- Central argument is that play-based learning, especially when paired with intentional facilitation, can help dissolve these fears and foster meaningful tech exploration
- Designed to bridge the gap between simply having access to equipment and actively using it to empower users.
- Focuses on fostering a mindset shift: from fear and hesitation to creative ownership and community

Zachary Snyder
Idea Garden Program Curator,
Student Technology Centers, Learning Spaces
Indiana University

13:00 Business Lunch 

14:00 Workshop 

Building a Unified Digital Ecosystem: Bridging EdTech Silos Across the Institution

In this hands-on workshop, participants will explore strategies to break down fragmented EdTech systems and create a seamless, integrated digital ecosystem across their institution. Through case studies and collaborative exercises, attendees will learn how to align technology platforms, data sources, and stakeholder needs to foster collaboration between departments and enhance the overall learning experience. The session will provide practical tools for overcoming common barriers to integration, promoting interoperability, and driving institution-wide digital transformation that supports both faculty and students.

14:30 Case Study: 

Designing Learning From Anywhere: Scaling Transformative Education Through Online and Blended Innovation

Faculty and institutions engaged in innovative teaching are driving a paradigm shift—transforming isolated classrooms into dynamic, boundaryless learning environments. This presentation will explore how robust online and blended learning frameworks can be strategically designed to empower instructors, foster student agency, and enhance learning outcomes. Attendees will gain insights into building scalable, inclusive models that blend synchronous and asynchronous engagement, leverage adaptive technologies, and enable seamless transitions between virtual and in-person experiences—ultimately placing pedagogy at the center of digital learning innovation.

Mary Ellen Wiltrout
Director of Online and Blended Learning
Initiatives, Lecturer in Digital Learning, Biology
Massachusetts
Institute of Technology

15:00 Case Study: 

AI Personas That Empathize and Strategize: Designing Human-Centered Agents for Innovation

- **Persona Design from Rich Data & Phenomenography**
Draw on interviews, focus groups, and phenomenographic methods to craft personas that capture student goals, frustrations, and perspectives in their own words.
- **Empathy Mapping to Surface Emotional Insight**
Use empathy maps ("Thinks, Feels, Says, Does") to structure what students think or feel but may not articulate publicly.
- **Scenario Testing with AI Personas**
Simulate how different personas (e.g., a working parent, a neurodiverse learner) might interpret assignment prompts or course instructions.
- **Strategic Insight Beyond Data Dashboards**
Traditional analytics show what students did; personas help explain why.

Mark Green
Vice President Institutional
Effectiveness and Technology
Holy Family University

15:30 Chair's Closing Remarks and End of Summit

Spotlight On Our Speakers

World EdTech & Innovation Summit | 12-13 February 2026 | Boston, MA

Rob Curtin
Director, Data & AI Global Edtech Ecosystem
Microsoft Education

Rob has been deploying technology in education for over 30 years. Beginning with IBM in 1988 he implemented the first classroom networks in the Boston Public Schools and joined Microsoft in 1991 - before Excel had the AutoSum button. In the 30 years since first joining Microsoft Rob has been a two-time EdTech entrepreneur, spending a decade working on the Exeter Student Information System (1995-2004), and co-founding Pip Learning Technologies in 2014 providing cloud identity and student privacy services to K-12 school districts. Rob has held both US and global roles at Microsoft, always focusing on education.

Rob received a B.S. from Northeastern University, his favorite sport is women's soccer, and he deeply appreciates his wife for tolerating his travel schedule - and now, maybe even more for tolerating him at home.

Mary Ellen Wiltrout
Director of Online and Blended Learning Initiatives,
Lecturer in Digital Learning, Biology
Massachusetts Institute of Technology

Mary Ellen leads the execution of the digital learning strategy for the Department of Biology at MIT. Mary Ellen applies her teaching experience, PhD in biology, and knowledge of the learning sciences to transform the biology curriculum at MIT in collaboration with the faculty and instructional team. She trains and mentors instructors, postdoctoral fellows, and students, manages digital learning projects for the department, including open online courses and hybrid learning experiences, and conducts research on the design of digital learning experiences. She and her team created three of the massive open online courses (MOOCs) on the list of the best online courses of all time according to Class Central. She is also a founding member and senior co-leader of the cross-departmental Digital Learning Lab of MIT Open Learning. Before returning to MIT, Mary Ellen taught at Harvard University after earning her PhD in Biology from MIT.

Kyle Bowen
Deputy CIO, Enterprise Technology
Arizona State University

Kyle Bowen is Deputy CIO at Arizona State University, where he leads strategic university efforts for effective uses of technology to advance institutional growth. Kyle guides a portfolio of disciplines such as enterprise AI, learning experience and disruptive innovation. Formerly the director of Teaching and Learning with Technology at Penn State, and director of informatics at Purdue University, he is experienced in shaping institutional strategies that help students meet their learning goals through innovative technologies. Kyle is an experienced entrepreneur and frequent speaker on the role of technology to change education. He has co-authored and edited more than 20 books in the areas of design, online development and usability, and his work has appeared in the New York Times, USA Today and the Chronicle of Higher Education.

Lauren Barbeau
Assistant Director,
Learning and Technology Initiatives
Georgia Institute of Technology

Lauren Barbeau, Ph.D., is passionate about enhancing the value for and quality of teaching. As the co-author of Critical Teaching Behaviors and the forthcoming book Peer Observation Made Practical for Higher Education, Lauren advocates for academic culture shifts that better identify, foster, evaluate, and reward effective teaching. She currently serves as the Assistant Director of Learning and Technology Initiatives in the Center for Teaching and Learning at Georgia Tech.

Helen Chu
Assistant Vice Provost,
Learning Spaces & Support
Stanford University

Helen is the Assistant Vice Provost of Learning Spaces and Support at Stanford University. She co-authored Stanford Classrooms Reimagined, the University's master plan for classrooms and informal learning spaces. She manages university classrooms and informal learning spaces as well as student technology support in the residence halls and campuswide.

Prior to joining Stanford University, Helen served as the Chief Academic Technology Officer, the Associate Dean of Libraries, and the Director of Academic Technology at the University of Oregon; the Director of Library IT and Digital Services at California Polytechnic San Luis Obispo, and Associate Director of Web Development and Strategy at Columbia University.

Helen recently completed a Master of Information degree with a concentration in Data Science from Rutgers University and a Master's and Bachelor's from UCLA in French Language and Literature.

Zachary Snyder
Idea Garden Program Curator,
Student Technology Centers, Learning Spaces
Indiana University

Passionate about helping people connect with emerging technologies in creative and meaningful ways. I lead an open, collaborative space that combines traditional makerspaces with the guidance of a lab. My work focuses on making tools and information accessible while empowering students, faculty, and staff to explore, experiment, and innovate—often through play.

Kanchan Thaokar
Assistant Director, Education Technology
Fordham University

Kanchan Thaokar is the Assistant Director for Educational Technology at Fordham University, where she leads digital learning initiatives that enhance teaching, student engagement, and institutional strategy. With a background in finance, audit, and information technology, she brings a cross-functional perspective to educational innovation. Kanchan specializes in implementing AI tools, active learning strategies, and inclusive technologies that align with both pedagogy and mission in higher education.

Mark Green
Vice President Institutional
Effectiveness and Technology
Holy Family University

Dr. Mark Green serves as the vice president for institutional effectiveness, technology, and innovation at Holy Family University. He has extensive experience in strategic planning, AI, data analytics, assessment, and data governance in higher education.

Prior to joining Holy Family, Dr. Green held administrative and teaching roles at Drexel University and was recognized for excellence in service and instruction. He has served as a site evaluator for the Middle States Commission on Higher Education since 2016, supporting accreditation and quality assurance across the region.

At Holy Family, Dr. Green leads strategic planning, institutional research, assessment practices, and technology initiatives that drive improvement and data-informed decision-making. He partners across departments to align academic and administrative operations with the University's mission.

Kim Manturuk
Executive Director of the Center for Excellence
in Teaching Learning and Online Education
Georgia State University

Dr. Kim Manturuk is Executive Director of Georgia State University's Center for Excellence in Teaching, Learning, and Online Education, where she leads transformational initiatives serving 50,000+ students and 3,000+ faculty. A nationally recognized expert in educational innovation and AI integration in higher education, she has pioneered programs including an Inclusive Access textbook initiative that saves students over \$500,000 per semester and leads the integration of high-impact practices across all core curriculum classes. She holds a Ph.D. in Sociology from UNC Chapel Hill and an MBA from UNC Wilmington.

Greg Heiberger
Interim Dean of the Van D. &
Barbara B. Fishback Honors College
South Dakota State University

Dr. Heiberger's 20 years of innovation at higher education includes curricular, co-curricular, and outreach programming. His professional career spans 5 years in student affairs, 10 years as pre-med advisor/instructor, and for the past 7 years he has served as Associate Professor & Coordinator of the accelerated master's in Human Biology and Associate Dean in the College of Natural Sciences. He currently serves as interim Dean of the Van D. & Barbara B. Fishback Honors College and helps to lead the campus AI task force as it develops a vision and framework to support students, faculty, and staff. His recent research projects include a social listening study exploring the change in STEM career sentiment throughout the COVID-19 pandemic and is the PI for a National Science Foundation funded project titled: The Wokini Undergraduate Biology Education Network.

In 2022, SDSU was named one of the first 10 Metaversity campuses in the US. Greg currently leads SDSU's Metaversity initiative and additionally he has cultivated internal and external investment in VR initiatives supporting over 150 headsets deployed in physical VR labs, and a mobile VR lab project aimed at engaging regional rural communities in STEM activities and careers through VR. His team has developed 3D spatial recordings for human cadaveric anatomy education, conducted one of the first RCTs in VR anatomy education, and his PhD student and her team have created a VR app for introductory biology curriculum that has been shown to improve student's understanding of structure and function in cellular biology.

Joe Way
Executive Director, Digital Spaces
UCLA

Dr. Josiah Way is the Executive Director, Digital Spaces at the University of California, Los Angeles (UCLA), known as a revolutionary visionary and innovator in the audiovisual industry. As the leading educational technology thought leader, Joe was recognized as the 2019 AV Professional of the Year, 2023 AV Living Legend, 2008 Businessman of the Year, and is named to multiple top industry and influencers lists, including the 2024 global Top 100 Innovators and Entrepreneurs, 2024 Who's Who in America, 2023 Top 50 UC Professionals, and 2019 and 2022 Top 30 Higher Ed IT Leaders lists. He is a highly sought keynote speaker and writer, most acclaimed for his innovative design of the technology standard for hybrid instruction and business development within the higher ed vertical. Joe is the cofounder of the Higher Education Technology Managers Alliance (HETMA) and Higher Ed AV Media, host of the Higher Ed AV Podcast, and writer of the Business of AV monthly column. Dr. Way authored the bestselling book, Producing Worship, and is a regular contributor to multiple leading AV-industry publications, while also serving on numerous corporate and higher education advisory boards. Joe has over 30 years' experience in education, technical production and the arts, and organizational leadership and management. He has been featured in Forbes Magazine, the Wall Street Journal, ABC and PBS Television, Yahoo News, and consulted for high profile organizations like the United Nations, US Department of Education, and over forty Fortune 500's. In his free time, Joe enjoys cruising the lake on his boat with family and friends, golfing PGA West, and perfecting his Traeger meat-smoking techniques. Oh, and he once won his fantasy football league.

TERMS & CONDITIONS

By sending this form, I confirm that I have read and accepted the terms and conditions detailed below.

Confirmation

We will confirm your participation after receiving signed registration form. All discounts can only be applied at the time of registration and discounts cannot be combined. Discounts for group registrations are only valid for the number of delegates specified on your booking form.

Prices for each event are correct at the time of publication. Luxatia International reserves the right to change the prices at any time but changes will not affect registrations which have already been confirmed by Luxatia International.

Cancellation policy

You may substitute delegates at any time by providing reasonable advance notice to Luxatia International.

All cancellations received 60 business days or more before the event is held, this cancellation is subject to a registration fee up to 50% the value of the ticket per delegate. In case of canceling the registration later than 60 business days before the event is held, the paid amount cannot be refunded and the amount remains payable in full. In the event that Luxatia International cancels or postpones an event for any reason whatsoever, including but not limited to any force majeure occurrence, you will receive a credit for 100% of the contract fee paid. No refunds, partial refunds or alternative offers will be made and all pending amounts remain payable in case such situation.

Luxatia International is not responsible for any loss or damage as a result of a substitution, alteration or cancellation/postponement of an event. Luxatia International shall assume no liability whatsoever in the event this conference is cancelled, rescheduled or postponed due to a fortuitous event, Act of God, unforeseen occurrence or any other event that renders performance of this conference impracticable, illegal or impossible. For purposes of this clause, a fortuitous event shall include, but not be limited to: war, fire, pandemics, labor strike, extreme weather or other emergency. Please note that while speakers and topics were confirmed at the time of publishing, circumstances beyond the control of the organizers may necessitate substitutions, alterations or cancellations of the speakers and/or topics.

Copyright

All Intellectual Property rights in all materials produced or distributed by Luxatia International in connection with this event are expressly reserved and any unauthorized duplication, publication or distribution is prohibited.
