# 11th Corporate Learning & Development Summit

21-22 May 2026 | Hotel Riu Plaza | Berlin, Germany

We are pleased to announce the launch of the **11th Corporate Learning and Development Summit** that will take place on the **21st–22nd of May 2026 in Berlin, Germany**. Building on the success of the previous ten editions, this summit will focus on intelligence-driven learning, next-generation learning ecosystems, AI and analytics in talent development, immersive and microlearning experiences, ethical and inclusive learning practices, adaptive leadership, purpose-driven culture, and aligning skills development with organizational transformation. This cross-industry event will bring together top L&D, talent management, and HR experts to explore innovative strategies for integrating learning into the flow of work, creating dynamic capability pipelines, and leveraging technology to enhance engagement, performance, and wellbeing. Join us for this transformative two-day experience, filled with networking opportunities, practical case studies, interactive sessions, and hands-on workshops!

## Key Practical Learning Points

- Leveraging AI and Learning Analytics to Personalize Development and Predict Talent Outcomes
- Designing Integrated, Evolving Learning Ecosystems That Align with Organizational Goals
- Shifting Focus from Static Job Roles to Dynamic, Skills-Based Capabilities
- Embedding Learning Seamlessly into the Flow of Work for Real-Time, Contextual Development
- Creating Immersive and Microlearning Experiences That Enhance Memory, Motivation, and Application
- Harnessing Social and Peer Learning Through Mentoring, Communities of Practice, and Collaborative Approaches
- Applying Ethical Principles to Ensure Trust, Privacy, and Fairness in Learning Technologies
- Developing Adaptive Leadership and Self-Directed Capabilities for a Fast-Changing Business Environment
- Cultivating a Purpose-Driven Culture That Integrates Wellbeing, Inclusivity, Curiosity, and Continuous Learning

### Learning Innovation at Scale: Embedding AI in Learning at Ericsson

This case study explores how Ericsson approaches learning innovation and how this innovation mindset has enabled the embedding and scaling of AI within Talent & Development.

The session shows how a clear strategy, combined with hands-on experimentation, allows T&D teams to introduce AI in a practical, responsible, and scalable way. It also highlights the role of Learning NEXT, Ericsson's internal learning innovation community, in supporting experimentation, shared practice, and capability building across global teams.

Head of Learning Technology and Innovation, Global L&D  
Ericsson

12:30 Case Study: 

### Frontier Firm: Turning Ambition Into Adoption with an AI-Ready Workforce

- **What is a Frontier Firm:** A Frontier Firm is a company that leads in using AI. They focus on new ideas, try new things, and make AI a key part of their business and culture.
- **Steps to Using AI:** Becoming a Frontier Firm happens in stages. First, AI helps with tasks. Next, digital agents work alongside people. Finally, AI can run business processes with people guiding it. This helps people do their work better.
- **Ongoing Learning:** Teaching employees new skills is very important. Almost half of leaders say this is a top priority. Frontier Firms make sure everyone is always learning about AI, which helps close skill gaps and improve the business.
- **Organized AI Training:** For success, the whole company needs to work together. Leaders set the direction, technical teams build AI solutions, and business users use AI every day. Everyone should know the basics, like how to use AI responsibly and how to work with AI tools.

## EXPERIENCE, IMMERSION & ENGAGEMENT

14:00 INTERACTIVE SESSION 

### Managing Cognitive Workload: Building Sustainable Performance in a Complex World

In this interactive session, we will explore the real drivers of cognitive workload in today's fast-moving organizations and how Learning & Development can help reduce complexity, protect employee focus, and support sustainable performance. Through practical insights and engaging discussion, participants will discover how clearer processes, smarter learning design, and people-first leadership can create healthier, more effective workplaces.

### Facilitating Learning in a Digital World: Skills, Tools, and Digital Confidence

Digital learning is only effective when it connects, engages, and motivates. Facilitators must understand how to create meaningful interactions online, blending instructional skill with the right technology. Video conferencing platforms, collaborative tools, and communication software are not just utilities—they shape how learners connect, share ideas, and apply knowledge. Confidence with these tools transforms a digital module from a passive experience into an active, immersive environment. Practical guidance and strategies help facilitators navigate common challenges, foster engagement, and ensure that learning outcomes are achieved, even when teams are distributed and sessions are fully virtual.

**Joel Noel**  
Commercial Learning and Development Lead  
Philip Morris International

16:30 PANEL DISCUSSION 

### The Future of Corporate Learning – Balancing Human Creativity and AI

As corporate learning evolves at the intersection of technology and human capability, organizations face the challenge of combining AI-driven insights with human creativity, engagement, and culture. This panel discussion will explore how L&D leaders can harness AI to scale learning initiatives while maintaining human-centric approaches that foster collaboration, innovation, and employee motivation. Panelists will discuss frameworks for embedding AI responsibly, practical strategies for measuring learning impact, and approaches to sustaining engagement in a hybrid or distributed workforce.
