World Digital Healthcare & Al Summit

Hotel Riu Plaza Berlin, Germany

We are pleased to announce the launch of the **World Digital Healthcare and Al Summit** that will take place on **June 5-6, 2025** in **Berlin, Germany**. This summit will explore the transformative impact of digital health technologies and artificial intelligence on patient care, clinical decision-making, and healthcare systems. This industry event will provide an ideal platform for healthcare professionals, life sciences experts, academics, and technology innovators to connect and share practical insights on cutting-edge advancements in Al, telemedicine, personalized medicine, healthcare data analytics, and strategies shaping the future of patient care and operational excellence. Join us to learn, network, and be inspired by real-world case studies and insights from global experts.

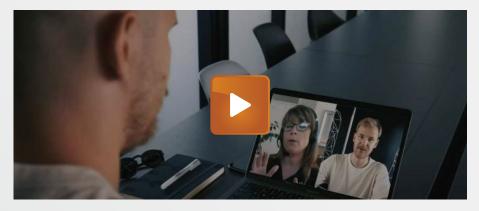

Key Practical Learning Points

- Pioneering Digital Innovation in Healthcare: Strategies for Success
- Adopting Standardized Frameworks for Streamlined Integration of New Technologies
- Promoting Collaborative Efforts for Industry-Wide Digital Transformation
- Harnessing AI for Transformative Healthcare Solutions
- Utilizing Digital Health Platforms to Streamline Patient Access and Care
- Advancing Patient Care through the Power of Generative AI Technologies
- Transforming Healthcare Data into Actionable Insights for Better Decision-Making
- Implementing Ethical AI Frameworks to Ensure Privacy and Transparency
- Exploring the Impact of Digital Twin Technology on Patient-Centered Care and Outcomes
- Enhancing Patient Communication with Virtual Assistants and AI-Driven Chatbots

Martin-Luther-Straße 1, 10777 Berlin, Germany hotel.plazaberlin@riu.com | +49 30 2809000

Who Should Attend

This summit will gather senior-level professionals from the healthcare and life sciences industries, dealing with the following areas of expertise:

- Al and Machine Learning
- Digital Health Solutions
- Internet of Medical Things (IoMT)
- Clinical Decision Support and Predictive Analytics
 Telemedicine
- Innovation and Digital Transformation
- Patient-Centric Care and Engagement
- Health IT & Infrastructure
- Health II & Infrastructure
- Medical Imaging and Diagnostics
 Healthcare Policy and Strategy
- Realthcare Policy and :
- Cybersecurity
- Healthcare Operations and Workflow Optimization
- & Others!

X 16+ Case Studies

X 20+ Hours of networking: forge new professional contacts during numerous networking breaks between sessions & during the special Networking Dinner on Day 1

X 100+ Pages of the Post-Summit Materials documentation package available upon demand*

FUTURE-PROOFING DIGITAL HEALTHCARE

ρ

20 Case Study:

Leveraging AI to Drive Patient Engagement and Improve Health Outcome

80% of cancer patients state a lack of awareness about their condition and treatment and struggle to find reliable high quality information online. This leads to high levels of patients withdrawing from their treatment with devastating impact. With the rapid development of AI in the healthtech sector we will discuss how we can leverage AI to drive patient engagement and improve patients health outcomes in a scaleable manner.

- Current shortcomings of patient engagement and its implications
- Opportunities to improve the systems
- Case studies and outcomes

Speacker TBC

- 13:00 Business Lunch
- 14:00 Case Study: ρ

The Potential of AI in Addressing Unmet Needs in Hospital Design and Commissioning

Hospital design and commissioning is a complex process often hindered by delays, cost overruns, and design changes. This paper explores the potential of AI to revolutionize this process. By leveraging AI-powered technologies, we can optimize space planning, workflow efficiency, and resource allocation. This can lead to significant cost savings, accelerated project timelines, and improved patient outcomes. AI-driven decision-making can mitigate risks, enhance design quality, and ultimately create more efficient and patient-centered healthcare facilities.

Hisham Elbanna Chief Operating Officer Medtown Hospital

Case Study: ρ

Evolving Adoption of Al in Healthcare in Kenya

Keeping in line with the emerging global trend of adopting AI in business applications, Kenya has also jumped on the bandwagon and is adopting usage of AI in healthcare. I will touch on the following points during my presentation:

- I will be sharing a few local case studies from different organizations and their impact on the desired outcome
- I will also be sharing some future opportunities and evolving applications of AI usage in Kenya
- I will also touch on some of the challenges around governance, data security and societal sentiments about AI in Kenya

Shiraz Dadar Head Of Information Technology M.P. Shah Hospital

Chair's Closing Remarks and End of Summit

Spotlight On Our Speakers World Digital Healthcare & Al Summit | 5-6 June 2025 | Berlin, Germany

Hisham Elbanna ^{Chief Operating Officer} Medtown Hospital

Hisham Elbanna is a seasoned healthcare executive with over 20 years of diverse experience in the pharmaceutical and medical equipment industry. Currently serving as the Chief Operating Officer at Madtown Hospital in Riyadh, he has held leadership positions at renowned companies such as Pfizer, Medtronic, and Cardinal Health. A Canadian board-certified pharmacist, Elbanna holds a Master of Business Administration and a Master of Clinical Research Administration.

Kjeld Harald Aij ^{Director} Erasmus MC

Dr. Kjeld Harald Aij, MBA is both a nurse and a business administrator and has over twenty five years of experience in healthcare.

Since 2020 he serves as one of the Directors of Erasmus Medical Center in a decisive leadership role to transform this largest academic hospital in the Netherlands - into a high-performing center of excellence. Kjeld plays a pivotal role in supporting the overall lean transformation of Erasmus MC and associated National as well as Regional initiatives and projects.

He also provides training on leadership, change management and lean thinking and working. In his latest book 'For Observation' Kjeld describes in 44 practical stories how to get grip on day-to-day healthcare challenges.

Wallace Wong Vice President Operations Bali International Hospital

Wallace Wong is a healthcare executive and technologist with a passion for innovation and operational excellence. As VP of Operations at Bali International Hospital, he leads strategic initiatives, digital transformation, and patient experience enhancements for a world-class healthcare institution. Previously, he headed IHH Singapore's Ambulatory Care division, launching and delivering a \$10M per annum healthcare outpatient facility, as well as spearheading robotic process automation (RPA) initiatives to improve hospital efficiency.

Beyond healthcare, Wallace is a tech-driven entrepreneur, co-founding WikiDoctors.com, a medical tourism platform, and PostalCodes.sg, a geolocation data provider. He holds degrees from MIT, INSEAD, Georgia Tech and the University of Illinois, and has a Black Belt for Lean Six Sigma. Passionate about digital transformation in healthcare, he continuously explores new ways to enhance patient care and operational efficiency.

Shiraz Dadar Head Of Information Technology M.P. Shah Hospital

Shiraz Dadar is an accomplished ICT Consultant with over two decades of diverse experience in industries spanning from hospitality to healthcare and across different regions in Africa and Qatar in the Middle East. He currently serves as the Head of the ICT Department at the M.P. Shah Hospital where he has been spearheading digital transformation for the past 14 years.

Coming from humble beginnings, he started his career as an end-user support technician to now heading an entire ICT department and serves as an advisor to the top leadership and board members. Through his experience he has fostered a deep understanding of users' unique needs, business objectives and a knack for solving complex problems in resource constrained environments.

Shiraz has successfully led strategic technology initiatives and digital transformations, earning the prestigious CIO award in Healthcare in 2021, was a finalist for a CIO Africa award in 2024 and also featured as a speaker at International forums like the Health Innovation Summit Africa in South Africa and Gen AI Applications in Business panel discussion at the CIO symposium in 2024.

Jonathan McKee Head of Information Governance Moorfields Eye Hospital, London

Jonathan is an expert in the field of information governance, with a special interest in stakeholder management and professional development. As a qualified Data Protection Officer at Moorfields Eye Hospital, a world leading care provider Jonathan will be sharing his experience of facilitating governance development within projects and programmes in the context of big data and the potential of AI. Having a clinical background has been useful when developing understanding between technical and project groups, Jonathan has successfully shifted the focus from paperwork to progress by reformulating governance to be an enabler, not a blocker.

Jacqueline Robinson Chief Operating Officer Beacon Hospital

Jacqueline Robinson has been the COO at Beacon Hospital since April 2023, overseeing the hospital's strategic and operational functions. She is a highly accomplished healthcare leader with expertise in strategic service planning, project management, and financial planning. Jacqueline is a pharmacist by profession and holds a post graduate diploma of clinical pharmacy and an Executive MBA.

Before joining Beacon Hospital, Jacqueline served as General Manager at St. Luke's Radiation Oncology Network, Dublin

(2017–2023), where she led the delivery of specialised oncology services. From 2011 to 2017, she led cancer services operations at St. James's Hospital, Dublin.

Beacon Hospital is one of the most technologically advanced private hospitals in Europe. It operates as a full-service acute hospital providing the highest level of care delivered by over 1,900 experienced staff and 350 specialist consultants. It treated over 200,000 patients last year across all areas of medicine and surgery. The hospital facilities include 251 beds, 8 operating theatres, 3 cath labs and 4 endoscopy suites.

Sara Kinnunen Data and Analytics Director HUS Helsinki University Hospital

Sara is the Data and analytics director at HUS (Helsinki University Hospital) and is responsible for all data, analytics and AI development and operations at HUS. HUS is a pioneer in utilizing data, developing AI solutions and enabling world-class medical and academic research through HUS's datapool, which is the largest healthcare-related datapool in Europe. Sara has worked in trailblazer roles in digitalizing Finnish healthcare sector in both private and public healthcare sector and has led the development of several data-driven innovations in this field and is at home leading tech and data teams. Sara is a people first leader with a passion for making healthcare sector more efficiently the help of data, digitalization and new technologies such as LLMs. Sara is a change maker who focuses on utilizing agile development methodologies and creating a humane and efficient working culture. Empathy, honesty and passion are three big values for Sara. Sara is a hands on problem solver who always wants to focus on maximizing value creation. Sara is used to working in between the business and technology and is a bridgebuilder.

Magnus Kjellberg Head Al Competence Center & Chief Data Scientist Sahlgrenska University Hospital

With more than 20 years of experience in data analytics and AI, mainly from the Life Science and R&D sectors, Magnus has been responsible for AI at Sahlgrenska University Hospital since 2021 as head of the AI Competence Center. He has authored the data and AI strategy for Region Västra Götaland and is involved in several national and international initiatives.
